Households by Income, 2010 to 2016

Number of Households: 304,133 Median Household Income: \$63,315 Above ALICE Households: 120,570 (49.2%) ALICE Households: 129,588 (35.7%) Households in Poverty: 53,975 (15.1%)

Additional Information:

ALICE (Asset Limited, Income Constrained, Employed) families are households who earn income above the poverty line, but below the calculated household survival budgets. For the purposes of this research, households who fall under the poverty line are also represented in the figures.

ALICE families for this research were calculated using the HHSB data for families as the threshold, then rounded to the nearest income bracket. Then, each household whose income is equal to or below that income bracket get added for each geographic area. Fields with no data are generally a consequence of limited data collection or data processing. Data processing largely involves conversion data in block groups to data in zip codes. Vol of 211 calls were normalized using ALICE families + poverty to truly reflect the former based on target population. Collection of 211 call data and median household income data was limited. This is not a complete representation of the phenomenon observable in Pierce County. There is some deviation in the results of this research from the original ALICE research. No liability is held from the misrepresentation and misuse of this information.
